Fallout new vegas casm

Fallout new vegas casm crash. Fallout nv cass won't follow. How to install fallout new vegas.

Options are still up to 50 saves. Full Save: AA Full Save is a unique save that will never be overwritten. The naming of a full save is as follows: Character Name - Level - Location - Date - TimeSave/Load INI: A This option lets you save your settings to an INI file, and reload them from any other save. Version 1.50 - Added multiple new options for when to create saves - Made console output optional - Added ability to save and load an INI file - Added two new save types Version 1.51 - Fixed bug in the MCM script that kept the menu from showing up. Had forgotten to uncomment the timers in the script. I suggest you leave this as an autosave, and if using it set your save delay to 30 seconds or more, to avoid having it run over all of your autosaves. ADDITIONAL: Combat end detection is broken due to the functions it uses not working. There is only one INI, so saving a new set of options will overwrite the old one. Version 1.52 - Fixed issue with co-save bloat due to incorrect string destruction - Now loads settings on game start (also across saves) - Fixed mouse over text in MCM menu Version 1.53 - Fixed Default settings when no INI present Version 1.54 - Fixed Default minimum health percent to 20 instead of 0.2 - Removed non-standard data NXMM added to the fomod script which prevented it from working in FOMM DESCRIPTION: Inspired by vivanto's AA AutoSave Manager for Skyrim. Currently has plugins for Books, Magazines, Cards, Mods, Misc Craft Parts, Ammo Parts, Currency, Chems, Alcohol, and Food.examples:Book: Duck and Cover!Mag: Lad's LifeCard: 10 of Clubs - Ultra-Luxeetc. It looks for nearby discovered map markers, and if you get within a certain range it will create a save. Includes several of the optional save conditions from the Fallout 3 version of the mod. Version 1.11 - Removed the constant console output.
